In 1997, with funds donated by the Callahan Family in memory of their son (a disc golfer), the Waukegan Park District installed a nice little nine-hole in a beautiful park setting. Bevier Park is located on the north side of Waukegan. It's a beautiful well kept park with a small pond in the center of it. The Henry Pfau Callahan Disc Golf Course circles the pond and has a wide variety of holes. Many stereotype the course as short and easy. With the addition of two alternate tee pads for every hole, this course suits a wide variety of skilled players. As each year passes, trees are maturing and routes to baskets get tighter. In 2003, DISContinuum Disc Golf Club installed 3 holes in the woods to make it a 12 hole course. With 3 tees for every basket, it's a virtual 36 hole course.
