

Fairfield Hole 2

Last Updated Monday, 19 March 2007

FAIRFIELD PARK HOLE #2 (297 feet) Â

This downhill throw is very deceiving - it looks shorter than it plays and theÂ basket sits on the side of a hill. Often during the spring & after rains in the summer there is water flowing in the ditch that runs to the swamp. This ditch has tall grass in it year round and is about 10 feet from the pin.Â If you fall short you run the risk of landing in the tall grass which obstructs your putt. Shoot longÂ and you run the risk of a longÂ downhill putt.

Â On to Hole 3Â
